## Education

---

**Hunter College** | *B.A. Computer Science*

Expected June 2021

- Daedalus Honors Program
- **Relevant Coursework:** Data Structures and Algorithms, Discrete Structures, Applied Statistics

**Midwood High School** | *Cumulative Average: 97.98*

September 2014 - June 2018

- Summa Cum Laude
- President of the Computer Science Club

## Experience

---

**WHIM** | *Software Engineering Intern*

June 2019 - September 2019

- Tested web and mobile apps for bugs, improvements, and new features.
- Programmed and created bug and improvement tickets on **JIRA** to successively implement features for the development and production stage of the web application using **ReactJS**.
- Developed UI features on the web application with **ReactJS**, **Redux**, and **SCSS**.
- Optimized and programmed UI tests in **TypeScript** to reduce automation test runtime by **90%**.

**NYC Tech Talent Pipeline Bootcamp** | *Web Development Fellow*

May 2019 - June 2019

- Participated in an accelerated bootcamp covering web development principles and frameworks, which included tools and technologies such as: **Git**, **SQL**, **JavaScript**, **Node**, **Express**, **React**, **Redux**, and **PostgreSQL**.

## Projects

---

**CunyFirst2.0** | *cunysecond.pillows.dev*

- Worked with a team of 4 in a web development bootcamp to develop a web application built to replicate features of our college's web portal.
- Helped design and reinvent its user interface and user experience using **ReactJS**, **Redux**, and **CSS**.

**Pixelator** | *github.com/wongjessica/pixelator*

- Developed a canvas painting web application with **HTML**, **CSS**, and **JavaScript**.
- Allows the user to paint with pixels, with options to add rows and columns to the grid, remove them, select a color, and to fill and clear all the pixel cells.

## Accomplishments

---

- Administrator of Subtle Asian Tech: Moderates a Facebook group of over 6,500 members. We provide resume review, interview prep, and professional networking opportunities to those in tech.
- Head Programmer and CAD Designer of the Midwood High School Robotics Team.

## Skills

---

- **Languages:** Cantonese (Conversational), Vietnamese (Comprehensible), Spanish (Limited)
- **Programming Languages:** HTML/CSS (6+ years), Java/C++ (2-3 years), Python/JavaScript (6+ months)
- **Technical:** Git, SQL, Node, React, Redux, Express, SCSS, Docker, Postman, Linux, MacOS
